Statement of Intent

The Mosley Academy understands that using online services is an important aspect of raising educational standards, promoting pupil achievement and enhancing teaching and learning. The use of online services is embedded throughout the school; therefore, there are a number of controls in place to ensure the safety of pupils and staff. The breadth of issues classified within online safety is considerable, but they can be categorised into three areas of risk:

- **Content:** Being exposed to illegal, inappropriate or harmful material, e.g. pornography, fake news, and racist or radical and extremist views.
- **Contact:** Being subjected to harmful online interaction with other users, e.g. commercial advertising and adults posing as children or young adults.
- **Conduct:** Personal online behaviour that increases the likelihood of, or causes, harm, e.g. sending and receiving explicit messages, and cyberbullying.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our school has created this procedure with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

1. Legal Framework

- 1.1. These procedures have due regard to all relevant legislation and guidance including, but not limited to, the following:

3. The Curriculum

3.1 Online safety is embedded throughout the curriculum; however, it is particularly addressed in the following subjects:

- RSHE
 - PSHE
 - Computing
- 3.2. The curriculum and the school's approach to online safety is developed in line with the UK Council for Child Internet Safety's 'Education for a Connected World' framework and the DfE's 'Teaching online safety in school' guidance.
- 3.3. Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using.
- 3.4. Online safety teaching is always appropriate to pupils' ages and developmental stages.
- 3.5. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:
- How to evaluate what they see online
 - How to recognise techniques used for persuasion
 - Acceptable and unacceptable online behaviour
 - How to identify online risks
 - How and when to seek support
- 3.6. The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in Appendix 1 alongside these procedures.
- 3.7. The DSL is involved with the development of the school's online safety curriculum.
- 3.8. The school recognises that, while any pupil can be vulnerable online, there are some pupils who may be more susceptible to online harm or have less support from family and friends in staying safe online, e.g. pupils with SEND and LAC. Relevant members of staff, e.g. the SENCO and designated teacher for LAC, work together to ensure the curriculum is tailored so these pupils receive the information and support they need.
- 3.9. Class teachers review external resources prior to using them for the online safety curriculum, to ensure they are appropriate for the cohort of pupils. When reviewing these resources, the following questions are asked:
- Where does this organisation get their information from?
 - What is their evidence base?
 - Have they been externally quality assured?
 - What is their background?
 - Are they age appropriate for pupils?
 - Are they appropriate for pupils' developmental stage?
- 3.10. External visitors may be invited into school to help with the delivery of certain aspects of the online safety curriculum. The headteacher and DSL decide when it is appropriate to invite external groups into school and ensure the visitors selected are appropriate.
- 3.11. Before conducting a lesson or activity on online safety, the class teacher and DSL consider the topic that is being covered and the potential that pupils in the class have suffered or may be suffering from online abuse or harm in this way. The DSL advises the staff member on how to best support any pupil who may be especially impacted by a lesson or activity.
- 3.12. Lessons and activities are planned carefully so they do not draw attention to a pupil who is being or has been abused or harmed online, to avoid publicising the abuse.
- 3.13. During an online safety lesson or activity, the class teacher ensures a safe environment is maintained in which pupils feel comfortable to say what they feel and are not worried about getting into trouble or being judged.
- 3.14. If a staff member is concerned about anything pupils raise during online safety lessons and activities, they will make a report in line with sections 15 and 16 of in these procedures.

- 3.15. If a pupil makes a disclosure to a member of staff regarding online abuse following a lesson or activity, the staff member will follow the reporting procedure outlined in sections 15 and 16 of these procedures.

4. Staff Training

- 4.1. All staff receive safeguarding and child protection training, which includes online safety training, during their induction.
- 4.2. Online safety training for staff is updated annually and is delivered in line with advice from the three local safeguarding partners.
- 4.3. In addition to this training, staff also receive regular online safety updates as required and at least annually.
- 4.4. The DSL and any deputies undergo training to provide them with the knowledge and skills they need to carry out their role, this includes online safety training. This training is updated at least every two years.
- 4.5. In addition to this formal training, the DSL and any deputies receive regular online safety updates to allow them to keep up with any developments relevant to their role. In relation to online safety, these updates allow the DSL and their deputies to:
- Understand the unique risks associated with online safety and be confident that they have the relevant knowledge and capability required to keep pupils safe while they are online at school.
 - Recognise the additional risks that pupils with SEND face online and offer them support to stay safe online.
- 4.6. All staff receive a copy of these procedures upon their induction and are informed of any changes to the procedure.
- 4.7. Staff are required to adhere to the **Staff Code of Conduct** at all times, which includes provisions for the acceptable use of technologies and the use of social media.
- 4.8. All staff are informed about how to report online safety concerns, in line with sections 15 and 16 of these procedures.
- 4.9. The DSL acts as the first point of contact for staff requiring advice about online safety.

5. Educating Parents

- 5.1. The school works in partnership with parents to ensure pupils stay safe online at school and at home.
- 5.2. Parents are provided with information about the school's approach to online safety and their role in protecting their children. Parental awareness is raised in the following ways:
- Parents' evenings
 - Workshops
 - Newsletters
 - Twitter

8. Filtering and Monitoring Online Activity

- 8.1. The governing board ensures the school's ICT network has appropriate filters and monitoring systems in place.
- 8.2. The headteacher and ICT technicians undertake a risk assessment to determine what filtering and monitoring systems are required.
- 8.3. The filtering and monitoring systems the school implements are appropriate to pupils' ages, the number of pupils using the network, how often pupils access the network, and the proportionality of costs compared to the risks. We purchase Entrust's Securus filtering and monitoring package. This sends detailed reports to the Headteacher of any content accessed that may be deemed as inappropriate content.
- 8.4. The governing board ensures 'over blocking' does not lead to unreasonable restrictions as to what pupils can be taught with regards to online teaching and safeguarding.
- 8.5. ICT technicians undertake weekly checks on the filtering and monitoring systems to ensure they are effective and appropriate.
- 8.6. Requests regarding making changes to the filtering system are directed to the headteacher.
- 8.7. Prior to making any changes to the filtering system, ICT technicians and the DSL conduct a risk assessment.
- 8.8. Any changes made to the system are recorded by ICT technicians.
- 8.9. Reports of inappropriate websites or materials are made to an ICT technician immediately, who investigates the matter and makes any necessary changes. This is usually carried out through the headteacher or the computing lead or a DSI within school.
- 8.10. Deliberate breaches of the filtering system are reported to the DSL and ICT technicians, who will escalate the matter appropriately.
- 8.11. If a pupil has deliberately breached the filtering system, they will be disciplined in line with the Behaviour Procedure.
- 8.12. If a member of staff has deliberately breached the filtering system, they will be disciplined in line with the Disciplinary Procedure and Procedure.
- 8.13. If material that is believed to be illegal is accessed, inadvertently or deliberately, this material will be reported to the appropriate agency immediately, e.g. the Internet Watch Foundation (IWF), CEOP and/or the police.
- 8.14. The school's network and school-owned devices are appropriately monitored.
- 8.15. All users of the network and school-owned devices are informed about how and why they are monitored.

- 17.2. The governing board, headteacher and DSL review these procedures in full on an annual basis and following any online safety incidents.
- 17.3. Any changes made to this procedure are communicated to all members of the school community.
